You know I have to slam out in Pakistan

make your crew say "Who's that rapper, damn!?!"

Being bitter cause I'm butter but he shouldn't be your main concern

Versitile the style is wild so chile we constantly unadjournd

Me, See, D, Be, feeling this by the wilderness

we? for unique force chief I'm that nice

you can't slap twice who the guy you despise utilize its true we rise
to the top, crews we rock ASF (woo-woo!)

Magnificent and different,

I'm sent to prove we a tight (monkey scream) crew

I get open smoking suckers, yoking, Hold on, that's Deva-Ju

(ahh, thats deja-vu)

True*Mixing, then man sings,

"If I should suddenly start to shine, spin on my head and kick a rhyme"*

Look at everywhere I see that MC's rapidly producing
while I'm choosing Pasadam

I scrape my raps on over shine and drag

(My bro, where you at)

I'm coming round the corner from across the border

learned to read-a from the every-every day

to the t-typical it seems the full re-cipa-cipa-cal

I consider family but

mumblng as he slows down and gets deeper then silence

(poink)

Gimmie the mic and I

Everyone like when I

Start from Point A graph the intention of man woman and child man

love its state elevate many a mind state(Explosion)

So, you, see, That I come some of that other
