Lost At Sea (feat. Ryan Tedder)

Zedd

I was a boat driftin' out into the sea
I had nothing but pieces
Of thoughts of the hope
That you would see meI was a stone's throw away from land
But thousands and thousands
Of miles away
From reaching your handThe waves, they crashed
Upon the rocks that you
Were trying to walk along
And in my head I heard them
Playing a song for you and me
The waves, they crashed
Upon the rocks that you
Were trying to step along
And in my head I heard them
Playing a song for you and meLet's get lost at sea
Where they will never find us
Got stars at night to guide usLost at sea
Where they will never find us
Got stars at night to guide usI was a boat driftin' out into the sea
I had nothing but pieces
Of thoughts of the hope
That you would see me
I was a stone's throw away from land
But thousands and thousands
Of miles away
From reaching your handThe waves, they crashed
Upon the rocks that you
Were trying to walk along
And in my head I heard them
Playing a song for you and meThe waves, they crashed
Upon the rocks that you
Were trying to step along
And in my head I heard them
Playing a song for you and meLet's get lost at sea
Where they will never find us
Got stars at night to guide usLost at sea
Where they will never find us
Got stars at night to guide us
