

# Dance

## Maejor

No hesitation, don't keep me waiting  
No reservations, don't fight temptation  
So if I'm taking the lead, can I trust you to follow?  
And if we make it to sleep, will you love me tomorrow?  
Before we throw it away, I don't want you to say  
I don't want you to say another word, just  
Dance with me, baby  
Dance with me, baby  
When the music feels so right  
I want your body next to mine  
So dance with me, baby  
Just dance with me, baby  
Sometimes you break all the rules and still feels right, feels nice  
This time let's break all the rules and go all night, all night  
When you looking for love in the wrong place, what do you find?  
When you searching for something that's always been inside  
Yeah, so if I'm taking the lead, can  
I trust you to follow?  
And if we make it to sleep, will you love me tomorrow?  
Before we throw it away, I don't want you to say  
I don't want you to say another word, just  
All I want to do is rock, rock, link and pop  
Meet me at my crib at dawn  
So much love, where do we start?  
This shit sound like dirty pop  
Pop, pop, listen here  
Just make your intentions clear  
If you feel what I feel in here  
It's clear you need to  
Dance with me, baby  
Dance with me, baby  
When the music feels so right  
I want your body next to mine  
So dance with me, baby  
Just dance with me, baby  
When the music feels so right  
I want your body next to mine  
So dance with me, baby  
Just dance with me, baby  
When the music feels so right  
I want your body next to mine  
So dance with me, baby  
Just dance with me, baby
