

Feels Like Forever

Kygo & Jamie N Commons

Felt the pull of the night calling from some greater meaning
There was guiding lights pulling me closer to an end tonight
When I saw you standing there like
Something from a dream calling to me
I knew there was no time to be wasting I asked if I knew you 'cause I felt a pull from some
greater feeling
That took hold of me in that moment
And I know it's childish of me to think such things, to say such things
But this really feels like forever tonight 'Cause I'd walk a million miles just to know your name
I know you said you felt love before, this ain't the same
And I can't let you go 'cause this feels like forever, ooh
Feels like forever tonight
Feels like forever tonight
Feels like forever tonight
Feels like forever tonight
Feels like forever tonight
Feels like forever tonight Took a taxi out under those city lights
Chasin' dreams on a dime
There was no time to be wastin'
She said, "Don't you say those words 'cause I
Think I feel the same", I just
Stood there laughin', she was
Dancin' in the rain
She said, "Have you ever felt, like you been
Waitin' your whole life, just for
One moment, just for one moment?"
She said, "Have you ever felt, like you
Waitin' your whole life just for one moment"
This really feels like forever
'Cause I'd walk a million miles just to know your name
I know you said you felt love before, this ain't the same
And I can't let you go 'cause this feels like forever, ooh
Feels like forever tonight
'Cause I'd walk a million miles just to know your name
I know you said you felt love before, this ain't the same
And I can't let you go 'cause this feels like forever, ooh
Feels like forever tonight Feels like forever tonight
Feels like forever tonight
Feels like forever tonight
Feels like forever tonight
Feels like forever tonight
Feels like forever tonight
