

# Foreign Tongues (feat. Eleni Drake)

## Dirtcaps

We both speaking foreign tongues  
We both speaking foreign tongues  
We both speaking foreign tongues  
We both speaking foreign tongues You might see her all the time but I'm the one you think of  
You might fall asleep with her but I'm the one you dream of  
I can hear you all the time I'm the only thing you speak of  
I can see it in your eyes I'm the only thing you seek for We both speaking foreign tongues so are  
you

I'm in like and you're in love aren't you?  
We both speaking foreign tongues so are you  
I'm in like and you're in love aren't you?  
We both speaking foreign tongues so are you  
I'm in like and you're in love aren't you?  
We both speaking foreign tongues so are you  
I'm in like and you're in love aren't you?

Don't stop!

You-you-you foreign tongues

Don't stop!

You-you-you are you

Don't stop!

You-you-you foreign tong...

Don't stop!

You-you-you are you

We both speaking foreign tongues

We both speaking foreign tongues In the middle of the night you wish I was by your side

But I got one thing on my mind

Can you just leave your soul behind?

And even know your still with her I'm the only thing you chase down

Take your wicked little games

And let me listen to my own sounds

We both speaking foreign tongues so are you

I'm in like and you're in love aren't you?

We both speaking foreign tongues so are you

I'm in like and you're in love aren't you?

We both speaking foreign tongues so are you

I'm in like and you're in love aren't you?

We both speaking foreign tongues so are you

I'm in like and you're in love aren't you? Don't stop!

You-you-you foreign tongues

Don't stop!

You-you-you are you

Don't stop!

You-you-you foreign tong...  
Don't stop!  
You-you-you are you  
We both speaking foreign tongues  
We both speaking foreign tongues
