

# Woe Woe

## Twiztid

[Jamie Madrox]

I'm Lost in my head and no one can find me.

I'm evils supreme, devil get behind me.

Cause you're takin' a walk on the dark side of your heart.

(DARKNESS AND PAIN)

But you knew it was cursed, it was fucked up from the start.[Chorus]

Singin, Woe Woe Woe Woe.

I'm losin' control of my head and I feel that its gonna get crazy in here

(No no no no) don't say you cant feel it its time to get crazy, I'm losing my head up in here

(Tell me if you) see it feel it believe it

(Just like I do) feel it see it Believe it.[Monoxide Child]

When you stumble when you try, and you just cant get things right.

Turn the music up and lets get fucked up its the soundtrack to my life.[x2]

[Chorus]

Singin, Woe Woe Woe Woe.

I'm losin' control of my head and I feel that its gonna get crazy in here

(No no no no) don't say you cant feel it its time to get crazy, I'm losing my head up in here

(Tell me if you) see it feel it believe it

(Just like I do) feel it see it Believe it.[Monoxide Child]

They tell me that I'm sick and I need medicine.

But I wont take it cause the thought would hunger for all the voices in my head again.

I wanna let em in so let it be known,

Set it in stone the diabolical duo is coming home.No one can tell me any different

if you're alone keep your distance

I'm a bomb just listen to me tickin'

click click boom

sick addiction [x3]

[Chorus]

Singin, Woe Woe Woe Woe.

I'm losin' control of my head and I feel that its gonna get crazy in here

(No no no no) don't say you cant feel it its time to get crazy, I'm losing my head up in here

(Tell me if you) see it feel it believe it

(Just like I do) feel it see it Believe it.Anger and pain

You can't match my strange.No one can tell me any different

if you're alone keep your distance

I'm a bomb just listen to me tickin'

click click boom

sick addiction(Woe woe woe woe)

Anger and pain (No no no no)

You cant match my strange (tell me if you)

Anger and pain (Just like I do)

you cant match my strength(Woe woe woe woe)

Can you show me the way? (No no no no)  
Cause I'm locked in here to stay (tell me if you)  
Can you show me the way (Just like I do)  
Cause I'm locked in here to stay.
