Someone like  
Someone like  
Someone like  
Someone like  
Someone like  
Someone like you  
Someone like you  
Uh. Uh. Yeah light up til the pain gone  
All I hear is the same song  
When the radio came on  
Fuck around and get based on  
Do this shit till the day I die  
Are you ready, are you ready?  
Terrified but my hand is steady  
Verified, get the camera ready  
Carry my own weight  
All these earthquakes don't wake  
Me up from this deep sleep  
Diving into this cold lake

Fuck a bitch til her toes shake  
Tellin' me I'm her soul-mate  
Disguised emotion, no face, bullshit with that, no thanks  
Dealing with it since '08, fucked around, now I'm done  
And I heard you're supposed to race, when you hear the sound of that gun  
Now it's losing all of its fun, spending days in solitude  
Too many dumb interviews, put me in this awful mood  
Not thinking logical, gettin' high, jump off the moon  
Looked into his soul, when he died right there in the hospital  
Peace don't seem possible, when the mind is so closed  
Came in for your money, then left with all of your hoes

Someone like you Love me, love me  
 That fentanyl it numb me  
 Beautiful it get ugly  
 Turn you into a junkie  
 Still searching for something, but I don't know what  
 Dreaming about nothing, wake you up and then fuck  
 I love it when you get a little nasty  
 Hit it from the back, if you like that, wiggle them ass cheeks  
 Isn't that sweet, same shit we did last week  
 Before all the cash, you might stood up and would've walked passed me  
 Wake me up from this bad dream  
 Put a match to this gasoline  
 Every night you somebody different  
 Got me thinking it's Halloween  
 Fucked up, I can't feel myself  
 Work hard might kill myself  
 Exist through audio, But all my problems thats real as hell  
 Trapped in this wishing well, death creeping like splinter cell  
 Gettin' high, blew my mind away  
 Find the words to what I'm tryin' to say  
 I'ma think of that later  
 When the world goes against you, better get that paper Someone like
