

# **Wrong (feat. Lil Tjay)**

**[Luh Kel](#)**

Nah Nah Nah Nah Huh Uh Nah Yeah Nah Nah ahh  
 Girl my mood changed when you walk  
 through the door  
 Before you came there were tears on the floor  
 Girl you so perfect i think that its workin  
 You gave me your love now i really want more  
 Girl you so different, apart from the rest  
 Cool i dropped out, I don't really take tests  
 You gave me your love now i'm addicted like drugs  
 Girl i think you the plug, You the one with the best  
 You did me wrong  
 You did me wrong  
 You did me wrong  
 Girl you did me wrong  
 You did me wrong  
 You did me wro-o-o-ong  
 All by my side  
 Argue less talk i need you by my side  
 You had my back when the gang used to slide  
 Now you gone tell me you done with my time  
 I thought that i needed you in my life  
 All of them times that you talked what you liked  
 Girl you was down and you told me you rolled like my rollie  
 Im done cause you lied with my guys like nah  
 The only plan was to ball  
 Remember them times when we fall, but we got up and fought  
 I tried to leave you and stall  
 Baby I gave you my all, my all, my all  
 No calling, road in the back seat, yeah you used to ride like a taxi  
 Yeah my heart feel so deep in the black seat,  
 My heart feel so deep in the black seat  
 Girl my mood changed when you walked through the door  
 Before you came there were tears on the floor  
 Girl you so perfect I think that its workin'  
 You gave me your love now I really want more  
 Girl you so different apart from the rest  
 Cool I dropped out, I don't really take test  
 You gave me your love, I'm addicted like drugs  
 Girl I think you the plug, you the one with the best  
 You did me wrong, You did me wrong  
 You did me wrong, You did me wrong  
 Girl you did me wrong, You did me wrong  
 You did me wro-o-o-o-n-g
