

Gonna Wanna Tonight

Chase Rice

If you wanna climb a ladder on a water tower
than we'll kick it with the stars for a couple of hours
If you wanna we're gonna get way up high
If you wanna dip your toes where waters stops
If you wanna then we're gonna have to give a try, that's right If you gonna go out wait
where there ain't nobody around
And let your long hair get to falling down
And let your red lips leave
Their mark all over mine If you wanna then we're gonna girl
I hope you're gonna wanna tonight
If you wanna then we're gonna girl
I hope you're gonna wanna all night
If you wanna catch a buzz and ride it till the morning
Let's get two plastic cups
and baby I'll get to pouring
It don't really matter if it's whisky or wine
it's fine If you gonna go out wait
where there ain't nobody around
And let your long hair get to falling down
And let your red lips leave
Their mark all over mine Fill up the night air with the radio
And put your hands whatever they wanna go
Yeah we're right here
Girl just close your eyes If you wanna then we're gonna girl
I hope you're gonna wanna tonight
If you wanna then we're gonna girl
I hope you're gonna wanna all night
Gonna wanna get a little closer
Gonna wanna slide it on over
Gonna wanna Gonna wanna go out
where there ain't nobody around
And let your long hair get to falling down
And let your red lips leave
Their mark all over mine Come on
Fill up the night air with the radio
And put your hands whatever they wanna go
Yeah we're right here
Girl just close your eyes If you wanna then we're gonna girl
I hope you're gonna wanna tonight
If you wanna then we're gonna girl
I hope you're gonna wanna all night Gonna wanna get a little closer
Gonna wanna slide it on over

Gonna wanna
Ya gonna wanna tonight
