

Saturday Night

Chris Lane

Quick stop at the quick sign
Six in on a twelve pack
Way too many people in the back
Girl I guess you gotta sit on my lap - oh well
Climb through the barb wire
Light something on fire
Just watch it get higher
Yeah gonna be another all nighter Yeah we're just living living
Doing a little sipping sipping
See who's kissing on who Yeah take off running when the lights turn blue
Might call it crazy
Call it drunk and dumb and dangerous
They can call the cops on us
Call it never growing up
Call it what you like
But out here, way out here
Yeah we just call it Saturday night Yeah we just call it Saturday night
It ain't nothing but another Saturday night Find a place where we all park
Drop a tailgate and make a bar
Drop the jolly rancher in a jar
Till there's a halo round the stars uh huh
All the girls wanna skinny dip
Shimmy them shorts off of their hips
Somebody gotta busted lip
Trying to do a rope-swing cannonball flip
Yeah we're getting rowdy rowdy
When you're head gets cloudy cloudy
Hey baby how bout we see
Just how loud we can be Might call it crazy
Call it drunk and dumb and dangerous
They can call the cops on us
Call it never growing up
Call it what you like But out here, way out here
Yeah we just call it Saturday night
Yeah we just call it Saturday night
It ain't nothing but another Saturday night In just another day
And in the summertime it's every other day
Hey baby do I make you wanna say Hoohoo-
When you're restless and you're thirsty
You can act like it's your birthday
Yeah we do it right Yeah we do it right
Out here don't you know about our Saturday night It gets crazy

It gets drunk and dumb and dangerous
Let 'em can call the cops on us
They can call it never growing up
They can call it what you like
But out here, way out here
Yeah we just call it Saturday night
Yeah we just call it Saturday night
It ain't nothing but another Saturday night
Yeah we just call it Saturday night
It ain't nothing but another Saturday night
