

# Let the Night (Sharam Jey Remix)

## Dirty Vegas

Take a look at yourself  
You're going somewhere  
Such a beautiful thing  
And it feels right  
No, it's never too late  
To believe in something  
And open your eyes  
See what the world is saying You should see how good you look right now  
You should see how good you look right now Let the night, let the night, let the night, let the  
night  
Follow you  
Let the night, let the night, let the night, let the night  
Follow you  
Take another deep breath  
Look at your reflection  
You're a beautiful thing  
And it feels right Give a little bit more  
Try a little bit harder  
Can do anything  
Hear what the world is saying You should see how good you look right now  
You should see how good you look right now Let the night, let the night, let the night, let the  
night  
Follow you  
Let the night, let the night, let the night, let the night  
Follow you Take another deep breath  
Look at your reflection  
You're a beautiful thing  
And it feels right  
Give a little bit more  
Try a little bit harder  
Can do anything  
Hear what the world is saying You should see how good you look right now  
You should see how good you look right now Let the night, let the night, let the night, let the  
night  
Follow you  
Let the night, let the night, let the night, let the night  
Follow you Let the night, let the night, let the night, let the night  
Follow you  
Let the night, let the night, let the night, let the night  
Follow you
