

# Cruel and Beautiful World

## Grouplove

Go ahead and close the door  
I'll stand outside in the rain  
A little bird just told me so  
It's time to start over again So I'll run out and take this boat  
Far away from these shores And I'll reach behind an enemy line  
and find my curable cure Cause it's a cruel and beautiful world  
and I got my girl  
and if it seems like we're falling behind  
or just slipping on top from the mouths of our mind  
I buried a treasure  
far off near the desert I'm trying to find my way there  
It's been too long since I've been myself  
And my eyes can't see anymore  
and there's a song inside of this hard of mind  
and I'd like to sing it to you  
Cause there's an earthquake shaking inside my country  
Now what am I gonna do? Cause it's a cruel and beautiful world  
and I got my girl  
and if it seems like we're falling behind  
or just slipping on top from the mouth of our mind  
Cause it's a cruel and beautiful world  
(cruel and beautiful world)  
and I got my girl (he's got his girl)  
and if it seems like we're falling behind  
(seems like we're falling behind)  
or just slipping on top from the mouth of our mind
