

# Follow Me

## Usher

What we gon' do now (oh lord, try some if u like it)  
Is slow it down on tha flo (you know you like that)  
(try some if you like that)  
Uh oh  
Uh oh, yeah When you look from outside  
All you see is videos and shows (yeah)  
But there's more to my life than people could ever know (uh huh)  
Sometimes I gotta smile (smile)  
When I don't feel like smiling  
Sit back and ride (ride)  
When I feel like driving  
Nobody understands but you girl (fo sho)  
I can always be myself with you girl  
That's why I'm singing  
(Chorus)  
Ooooh I can't believe it  
You came just in time with what I needed  
And you're not like the other girls I meet everyday  
You stay down like them girls from around the way Uh oh  
That's why I had to say  
Come follow me, come follow me, come follow me  
That's why I had to say  
Come follow me, come follow me, come follow me (uh oh)  
That's why I had to say  
Come follow me, come follow me, come follow me now  
Right now  
Since you been in my life  
When I'm away from you I hurry home, aww yeah (aww yeah, I hurry home)  
You live in my mind so I never feel like I'm alone, yeah (alone)  
Sometimes I gotta go (go)  
Where I don't feel like going  
And when it gets too fast (fast)  
And I feel like slowing down (slowing down)  
No one understands but you  
That's why I only see myself with you (Chorus x2)  
Ooooh I can't believe it  
You came just in time with what I needed  
Ain't nuttin' like the other girls I meet everyday  
You stay down like them girls from around the way Come follow me, come follow me, come  
follow me (come now)  
Come follow me, come follow me, come follow me (girl come follow me now)  
Come follow me, come follow me, come follow me now (oooh)

Right now (right now) You've been there for me and i'll (so i'll)  
I'll be there for you girl (Chorus x 3)  
Ooooh I can't believe it  
You came just in time with what I needed  
Ain't nuttin' like the other girls I meet everyday  
You stay down like them girls from around the way (Fade)  
Come follow me, come follow me, come follow me (what we gon' do now)  
Come follow me, come follow me, come follow me (is slow it down on tha flo)  
Come follow me, come follow me, come follow me now  
Right now
