

Teach You (feat. Sara Bareilles)

[Emily King](#)

[Chorus]

Do I have to explain how to care for somebody you love?

Call 'em up on the phone when they're feeling blue

Light up with the words they say to you

Do I have to explain how to care for somebody you trust?

Make 'em feel like there's no one else around

Pick 'em up when you think they're going down

Do I have to teach you?[Verse 1]

How to show me when times are bad

How to ask about the day I had and make it alright

How to listen when we're all alone

How to put away a telephone and look into my eyes[Pre-Chorus]

It's never too late to learn the way

[Chorus]

Do I have to explain how to care for somebody you love?

Call 'em up on the phone when they're feeling blue

Light up with the words they say to you

Do I have to explain how to care for somebody you trust?

Make 'em feel like there's no one else around

Pick 'em up when you think they're going down

Do I have to teach you?[Verse 2]

How to trust me when I'm on my own

How to treat me when I get back home

And make up when we fight

How to take me out and have some fun

Hold my hand in front of everyone

And love me through the light[Pre-Chorus]

It's never too late to learn the way

[Chorus]

Do I have to explain how to care for somebody you love?

Call 'em up on the phone when they're feeling blue

Light up with the words they say to you

Do I have to explain how to care for somebody you trust?

Make 'em feel like there's no one else around

Pick 'em up when you think they're going down

Do I have to teach you?[Outro]

Oh, ooh-ooh ah

Oh, ooh-ooh ah

Ooh, yeah

Do I have to teach you?

Oh, ooh-ooh ah

Ooh, yeah
