

# I'm Here

Daniela Bessia

Without you  
Losing the thread  
Back in black  
Wondering if I'm  
Still in your mind Every time you kissed me  
Every single touch  
Moved me like forever  
Don't want to give you up And I'm here  
Waiting for you  
And I'm here  
Standing for you Because I can't, no  
I can't, no  
I can't, without you  
Because I can't, no  
I can't, no  
I cant, without you Without you x4 Losing my way  
Back at night  
Wondering if you  
Think about us Every time you loved me  
Every single day  
Crushed me like forever  
Leaving nothing left And I'm here  
Waiting for you  
And I'm here  
Standing for you Hoooo Hoooo  
You are not just my star  
You're my whole damn sky  
You are not just my love  
You're my whole damn life Because I can't, no  
I can't, no  
I can't, without you Because I can't, no  
I can't, no  
I cant, without you  
Without you You are not just my star  
Without you  
You're my whole damn sky  
Without you  
You are not just my love  
Without you  
You're my whole damn life Yeahhhh Without you  
You are not just my star  
You're my whole damn sky

Without you you  
You are not just my love  
Without you you  
You're my whole damn life  
Without you.....  
Without you
