Until you educate for a better way  
So if you wanna be in control  
Ya gotta get yourself in the know  
Get the knowledge  
That you really want  
The knowledge  
Do you really want? It's the knowledge  
What you really want  
The knowledge  
That you really want Spreading vise don't believe the hype  
You don't find the knowledge in a pipe  
Too many lives go up in smoke  
It's nice to laugh but don't be the joke To get over get better  
Try to be the possessor  
Of the one thing we all need in life  
To succeed take my advice  
Get the knowledge  
That you really want  
The knowledge  
Do you really want? It's the knowledge  
What you really want

If we're gonna change the way the world is run  
The way to start is to rid the children of

Prejudice and ignorance We've gotta teach our kids to read and write  
That's the only way to win this fight for life  
Education is the goal so
