

# Bonfire

## Sevendust

My hands are tied to the evil  
This soul is greed of man  
Like a child waking up to all the screaming  
Stay quiet for a while  
Hold on for a while now Don't make a sound  
Don't make a sound  
Don't make a sound Can this all be real?  
Here we are headed straight to the bottom now  
I gotta try and believe that's all we can do here  
On a long-distance highland road  
I'm begging  
Untie me from the reaper  
Forgive the honest man  
See the side scheming  
Pull your eyes together  
Stick around for a while  
We need you for a while now Round for a while  
Round for a while Can this all be real?  
Here we are headed straight to the bottom now  
I gotta try and believe that's all we can do here  
On a long-distance highland road Can this all be real?  
Here we are headed straight to the bottom now  
I gotta try and believe that's all we can do here  
On a long-distance highland road  
Can this all be real?  
Here we are headed straight to the bottom now  
I gotta try and believe that's all we can do here  
On a long-distance highland road  
On a long-distance highland road
