I Can Love You

Gary Allan

I can't stop your heart from breakin'
Can't make right mistakes we've made
Can't dry your cryin' eyes
For my little angel's sakeI can't make the sun keep smilin'
Or blow away the clouds
There's some things in this ol' world, girl
I can't do nothin' about
(chorus)
But I can love you
Like I've always done
And when the hard times come a knockin'
Honey you wont ever see me run
And I wont leave you
When you need a friend
Can't make the bad days that much better
Baby, then they've ever been
But I can love youCan't hold back the ocean waves
Or stop a sinkin ship
Can't make a mountain move
Or tell you how to liveChorusAnd I wont leave you
When you need a friend
Can't make the bad days that much better
Baby, then they've ever been
But I can love you
But I can love you
