

# Circles

Jana Kramer

Just the thought of you around  
Gets my head spinning  
In circles  
Just the way you say my name  
Gets my heart turning  
In circles You got me spinning like a wheel  
Oh how you make me feel  
It's more than gold on my fingers  
Six feet down & forever  
Cuz where I am  
Is where you begin  
You picked up the pieces  
& put me together  
You're the only part of me unbroken  
& I'm going  
In circles  
Every crooked little lie  
Bended, Connected, Circles  
Every star up in the sky  
Every hello & goodbye  
Every moment by your side  
Is the meaning of my life You got me spinning like a wheel  
Oh how you make me feel  
It's more than gold on my fingers  
Six feet down & forever  
Cuz where I am  
Is where you begin  
You picked up the pieces  
& put me together  
You're the only part of me unbroken  
& I'm going  
In circles  
In circles  
Just the thought of you around  
Gets my head spinning  
In circles  
Just the way you say my name  
Gets my heart turning turning turning round & round again You got me spinning like a wheel  
Oh how you make me feel  
It's more than gold on my fingers  
Six feet down & forever  
Cuz where I am

Is where you begin  
You picked up the pieces  
& put me together  
You're the only part of me unbroken  
& I'm going  
In circles  
In circles Just the thought of you around  
Gets my head spinning  
In circles
