

In the Field

Pardison Fontaine

Yeah,

Yeah, Yeah, Yeah,

Yeah,

I said now I was in the club boppin shit we love, yeah

Fuck this sweet shit Look, say where you at

I'm in the field right now

I had to bust (?) cause shit was getting real right now

If you broke I know how you feel right now

I got a baby on the way, I got bills right now

Where you going for the kilo right now

I'm in the store looking for some shit to steal right now

They think I wont, but I will right now

Face down, ass up, you know the drill right now

I said the cops still wildin

My stock still risin

These niggas still frontin

And these bitches still lyin

They know that I'm the one

I'm a mouthafuckin problem

And the only think I'm scared of's a motherfuckin siren

Look, Summer days was the worst days

We was drinking tap water, we was thirsty

A nigga lookin for a come up in the worst way

Hungry on Friday and don't get paid till Thursday

They gon tell you how it is

They say that touchin bricks is better than touchin ribs

I now I make it rain in the club, got the hoes getting loose

It used to rain in my crib, I had hoes in the roof

In the outfield, like Deion on draft night Where you at

I'm in the field right now

I had to bust (?) cause shit was getting real right now

If you broke I know how you feel right now

I got a baby on the way, I got bills right now

Where you going for the kilo right now

I'm in the store looking for some shit to steal right now

They think I wont, but I will right now

Face down, ass up, you know the drill right now Outfield like I was rich In my past life

Last night, I fucked with 3 or 4 bitches

And I feel the same way I felt last night

I was in the club

I was sippin bub

Sittin back, lookin where we at and where we was

Nigga pick a side you with them or you with us
Is it real, is it fake, nigga you could be the judge
Look I came from nothing, and I remind myself a lot
Real nigga, I remind myself of Pac
Where I'm from you either shoot or get shot
Where I'm from you do the getting to get got Where you at
I'm in the field right now
I had to bust (?) cause shit was getting real right now
If you broke I know how you feel right now
I got a baby on the way, I got bills right now
Where you going for the kilo right now
I'm in the store looking for some shit to steal right now
They think I wont, but I will right now
Face down, ass up, you know the drill right now
