

Fell in Luv (feat. Bryson Tiller)

Playboi Carti

I fell in love, fell in love
But that's okay, 'cause we in love
Oh my God, fell in love
I fell in love, with the love
Show me love, now give me love
Fell in love, I fell in love
I want in, for the love
Just show me love, just show me love
I fell in love, I fell in love
And that's okay, 'cause I'm in love
We in that bed, give me head
I want that, just today
Close your eyes
Don't share no tears
Keep it dark, close the shades
I'm off the pills, you on that lean
You fuck me slow,
Girl do your thing
Let's take some pictures,
Let's take some scenes
Playboy magazine
She got her panties down, with no tee
She got her titties out, she wanna the teeth
She tatted up now, I see you see
I know you see, I know you see us
You know I want that bitch
I wanna eat her
I wanna lick it up
I wanna fuck her (aye)
I want to freeze you up
I want them diamonds blinging
I want it all on you,
I want you all on me
Ooh
I fell in love, fell in love
But that's okay, 'cause we in love
Oh my God, fell in love
I fell in love, with the love
Show me love, now give me love
Fell in love, I fell in love
I want in, for the love
Just show me love, just show me love Lil' ma a flower, she gotta a flight now

Got a squad now, got a drop now
She club hoppin', jewelry shopping
Girl you shinin', girl you fine
Yeah, you fine as wine, frozen like diamonds (dime piece)
I treat you like my last dime
Go broke, no joke
I cut these hoes off
I kill the roll call
I put the doors up,
She like to show off
Them bitches sleepy,
Them bitches dosed off
I put a ring on it, it ain't got a ring to it
On my knees for you, watch me do how he ain't do it
I cannot speak for you, but I know that he ain't fluent
I speak your language,
He don't tell you things do he?
Like "Girl, you dangerous"
Girl I ain't seen beauty, not 'til I seen you
Don't you cheat like Queen do
Yeah, yeah, yeah
Let me sing to you
Let this be the theme music I fell in love, fell in love
But that's okay, 'cause we in love
Oh my God, fell in love
I fell in love, with the love
Show me love, now give me love
Fell in love, I fell in love
I want in, for the love
Just show me love, just show me love
I fell in love, I fell in love
And that's okay, 'cause I'm in love
