

# Little Bit of This (feat. Vince Staples)

## GTA

Hip hop ain't really did shit for me  
Little bit of hell, little bail for the homies  
Got a little green, bought a beam for the forty  
Took more shots, you have to face it, Kobe  
After dark you go crazy  
Police ain't scarin' shit, you ain't bred for this  
I'm still in the hood, they make bread and dip  
I'm not jumpin' ship, I might fuck your bitch  
Who got love for Vince?  
Feelin' like Snoop at the Source awards  
Feelin' like you wasn't born for war  
Cause when I come around you be head to the ground  
Crack a motherfuckin' smile, I'm the man 'round the town  
Frank Lucas mode  
When I'm in I heard that Frank Lucas told  
Long Beach like Crazy Joe with Mayhem  
Where we get new wheels from rocks like caveman  
Little bit of this, little bit of that  
Little bit of this, little bit of that  
Little bit of this, little bit of that  
Little bit of this, little bit of that  
Little bit of this, little bit of that  
Little bit of this, little bit of that  
Might dump a clip, where them niggas at?  
Might fuck your bitch, where the women at? Crack baby base in my Similac  
Been crazy, come where you livin' at  
Kick down the door, get down or get gone  
I ain't come here for the chitter chat  
But I'm far removed from that gangsta shit  
It don't make much sense, rather make me rich  
Don't be playin' with my money, it'll make the flip  
And in the last couple lines I'ma contradict  
And for the last time, I ain't writin' no more conscious shit  
I like big girls, fast whips, ass and tits  
Marriages to white women, Mike Jackson shit  
So stop actin' like I'm an activist  
No this ain't happen on accident  
They give a dead white man to the Africans  
It'll never be another one after Vince  
So just pay admission then pay attention  
Little bit of this, little bit of that  
Little bit of this, little bit of that

Little bit of this, little bit of that  
Little bit of this, little bit of that  
Little bit of this, little bit of that  
Little bit of this, little bit of that  
Might dump a clip, where them niggas at?  
Might fuck your bitch, where the women at?  
Little bit of this, little bit of that  
Little bit of this, little bit of that  
Little bit of this, little bit of that  
Little bit of this, little bit of that  
Little bit of this, little bit of that  
Little bit of this, little bit of that  
Might dump a clip, where them niggas at?  
Might fuck your bitch, where the women at? Uh, yeah, uh, yeah, uh, yeah, uh, yeah  
Uh, yeah
