

# Greedy

## All

Everyone's greedy, that's how society got this way  
Everyone's greedy, it's all about more for me You say you don't care about money  
How do you get a loaf of bread  
Or other shit that you use Everyone's greedy, that's how society got this way  
Everyone's greedy, it's all about more for me me me If you're telling me you're not greedy  
Then you can give me all your stuff, I could use a car like yours Everyone's greedy, even you  
and your buddies  
Everyone's greedy, it's just human nature, everyone's greedy  
We'll see how long you last without your stereo  
Everyone's greedy, it's all about more for me  
No one cares if I die destitute under the park bench
