

# Mudshovel

Staind

You take away  
I feel the same You take away  
I feel the same  
All the promises you made to me you made in vain  
I lost myself inside your tainted smile again Cause you can't feel my anger  
You can't feel my pain  
You can't feel my torment  
Driving me insane  
I can't fight these feelings they will bring you pain  
You can't take away  
Make me whole again  
I feel betrayed  
Stuck in your ways  
And you rip me apart  
With the brutal things you say  
I can't deal with shit anymore  
I just look away Cause you can't feel my ANGER  
You can't feel my pain  
You can't feel my torment  
Driving me insane  
I can't fight these feelings they bring only pain  
You can't take away  
Make me whole again Mudshovel  
You take away  
I feel the same  
All these promises  
You promised only pain  
If you take away  
And leave me with nothing again Cause you can't feel my ANGER  
You can't feel my pain  
You can't feel my torment  
Driving me insane  
I can't fight these feelings they will bring you pain  
You can't take away  
Make me whole again You will feel my anger  
You will feel my pain  
You will feel my torment  
Driving you insane  
I can't fight these feelings they will bring you pain  
You won't take away  
I'll be whole again
