

# Love Don't Live Here

## Ladyhawke

Love, love, love don't live here anymore  
You say that it's a shame and show me the door  
You say that you don't need me anymore  
And I said Love, love, love don't live here any  
Love, love all you want is ending  
Love, love all the nights we're spending  
Love, love, love don't live here anymore Lonely hearts are always wanting more  
But only parts of mine were still unsure  
You say that you don't want me anymore  
And I say  
Love, love, love don't live here any  
Love, love all you want is ending  
Love, love all the nights we're spending  
Love, love, love don't live here anymore Don't know anymore, don't know anymore  
Don't know anymore, don't know anymore Love, love, love is always so unsure  
But bleeding hearts have always known no law  
You say that you don't need me anymore  
And I said Love, love all the nights we're spending  
Love, love, love don't live here anymore Don't know anymore You say your life was heading  
downhill  
The light denied, that's why you left  
From me, what's left to you  
I waited for you still  
You say your life was heading downhill  
The light denied, that's why you left  
From me, what's left to you  
I waited for you still
