

# Where We Gonna Go from Here

Mat Kearney

All of your ways and all your thunder  
Get me in a haze running for cover  
Where we gonna go from here?  
Where we gonna go from here? Car lights in the driveway  
I wonder who's going coming my way  
Tomorrow we're turning down the highway  
With another bright state on a weekday  
Green grass and a radio  
Watching it fly past and away we go  
Seven hundred places, seven hundred faces more  
All your ways and all your thunder  
Got me in a haze running for cover  
Where we gonna go from here?  
Where we gonna go from here?  
The back of your eyes look like my mother's  
When we talk you're like my brother  
Where we gonna go from here?  
Where we gonna go from here? Time is moving on our side  
How could I miss you to another guy  
Pull of the ocean and the roaring tide  
Is bigger than my eyes or my design  
Father got a best plan  
Saving his daughter for the best man  
Seven hundred places, seven hundred faces more  
All your ways and all your thunder  
Got me in a haze running for cover  
Where we gonna go from here?  
Where we gonna go from here?  
The back of your eyes look like my mother's  
When we talk you're like my brother  
Where we gonna go from here?  
Where we gonna go from here? I've waited and I'll wait some more  
Won't see me knocking on another door  
But all this is crazy and amazing  
There's only one half of us that I'm saving  
So I'm praying just to let it go  
Watch from a distance just to see you glow  
Seven hundred places, seven hundred faces more All your ways and all your thunder  
Got me in a haze running for cover  
Where we gonna go from here?  
Where we gonna go from here?  
The back of your eyes look like my mother's

When we talk you're like my brother  
Where we gonna go from here?  
Where we gonna go from here?
