

Remember

Gryffin & Zohara

You love to talk without thinking
But never know what I'm thinking
And then I think about leavin'
But I'm gonna need your love
I'm gonna need your love
Sometimes you say I'm depressive
Then I get all defensive, ooh
I see you trying to question
That you're gonna need my love
You're gonna need me
Don't you remember?
The way we used to live for each other
Remember the way we fell for each other
When I was yours
And when you were mine
Remember the time
Love, when we fell in love
Love, when we fell in love
Love, when we fell in love
Oh, yeah, oh, yeah
Love, when we fell in love
Love, when we fell in love
You're gonna need my love
You're gonna need me
Don't you remember?
The way we used to live for each other
Remember the way we fell for each other
When I was yours
And when you were mine
Remember the time
It's like we're numb to the feeling
The one that used to be healing
And now I know that I need it
I'm gonna need your love
I'm gonna need your love
Cuz loving you it ain't easy
The hardest part is believing, ohh
That our love ain't just a season
You're gonna need my love
You're gonna need me
Don't you remember?
The way that we used to live for each other

Remember the way we fell for each other
When I was yours
And when you were mine
Remember the time
Love, when we fell in love
Love, when we fell in love
Love, when we fell in love
Love, when we fell in love
Oh, yeah, oh, yeah
Love, when we fell in love, mm
Love, when we fell in love
You're gonna need my love
You're gonna need me
Don't you remember?
The way that we used to live for each other
Remember the way we fell for each other
When I was yours
And when you were mine
Remember the time (Love, when we fell in love)
You're gonna need my love
You're gonna need my love, ooh
You're gonna need my love
You're gonna need my love, mhm
You're gonna need my love
You're gonna need my love ooh, ooh
You're gonna need my love,
You're gonna need my love
Love, when we fell in love
Love, when we fell in love
Love, when we fell in love, oh, yeah, oh, yeah
Love, when we fell in love
Love, when we fell in love
You're gonna need my love
You're gonna need me
Don't you remember?
The way that we used to live for each other
Remember the way we fell for each other
When I was yours
And when you were mine
Remember the time (Love, when we fell in love)
You're gonna need my love
You're gonna need my love, oo
You're gonna need my love
You're gonna need my love
Your love, I'm gonna need it
