

# Sleep Together

## Garbage

I got you crawling up a mountain  
Hanging round my neck  
I got you twisted round my finger  
Crawling round my legs  
The emptiness, the crazyness  
Satisfy this hungriness  
Darling, how would it feel? If we sleep together, will you like me better  
If we come together, we'll go down forever  
If we sleep together, will I like you better  
If we come together, prove it now or never  
Make me a pretty person  
Make me feel like I belong  
Make me hard and make me happy  
Make me beautiful  
The emptiness, the crazyness  
Satisfy this hungriness  
Darling, how would it feel? If we sleep together, will you like me better  
If we come together, we'll go down forever  
If we sleep together, will I like you better  
If we come together, prove it now or never  
(If we sleep together) Nothing satisfies me baby  
(If we sleep together) I wear something pretty baby  
(If we sleep together) Give me what I crave now baby  
(If we sleep together) Save the rest for later baby  
(If we sleep together) You will drive me crazy baby  
(If we sleep together) Save this one for you my baby If we sleep together (x2)
