

I've Been There Before

Brantley Gilbert

did you ever have to sit there
watch them holdin hands
everybody aroundyou knowshe's supposed to be your man
he tried to explain last night
she was still his man
all night long you tried to understand
don't it make you want to get you get up get up and walk away
say things you never would say
how do i know
i've been there before
i've been there before
did you ever have to stand there
on the outside lookin in
you know the man you love
belongs to your best friend
try to blow it out of your mind
you know your wastin your time
you know somebodys gotta loose
will you be the one to win
don't it make you wanna get up
and walk away
say things you never thought you would sayti've been there beforestanding in the middle
of a three way light
