

Call Me Tonight

Ava Max

Slip, slippin' on my Versace, New York party
Icy drip, drippin' on emerald snake, thank you Bvlgari
Get there quick
My chauffeur drove me back like a performer
I went straight, straight to dance and saw you You're lookin' for danger, hungry eyes
Are you sure? Are you free? Are you mine?
Looking for a stranger, fantasize
Don't let go, let me out of your sight You got me thinkin'
If you don't, don't know my name
Then baby you can just call me tonight
If I go, you'll go insane
Then baby you can just call me tonight
Call me tonight, Call me tonight
Just call me tonight
Break, break your heart in the mornin', don't you worry
And I'll fly, fly away before it's love, before you've boarded
Can't be grieving, no, I'm always leaving
When the sun is beating, I've beat it You're lookin' for danger, hungry eyes
Are you sure? Are you free? Are you mine?
Looking for a stranger, fantasize
Don't let go, let me out of your sight You got me thinkin'
If you don't, don't know my name
Then baby you can just call me tonight
If I go, you'll go insane
Then, baby, you can just call me tonight
Call me tonight, call me tonight
Just call me tonight Empty out your hands, pour me in your glass
If you need a light, I can be your match
I glow in the dark, take you to the clouds
You got me thinkin'
If you don't, don't know my name
Then baby you can just call me tonight
If I go, you'll go insane
Then baby you can just call me tonight
Call me tonight, call me tonight
Just call me tonight Call me tonight
