

Don't Cry

Asia

hard times you had before you
i knew when I first saw you
you thought you'd always been mistreated, cheated
don't leave it all behind you
it took so long to find you
i know that we can last forever, ever and ohhh
ooooo, and oooooooo
(don't cry)
now that I have found you (don't cry)
take a look around you (don't cry)
took so long to find you
do what you want
but little darling please don't cry
i knew i'd never doubt it
i was so sure about it
don't think i've always been before, oorrr
i hear you when you're calling
I'll catch you when you're falling
don't worry i will always be there
like ever before... oorree... orrrrr
(don't cry)
now that I have found you (don't cry)
take a look around you (don't cry)
took so long to find you
do what you want
but little darling please don't cry
(don't cry)
now that I have found you (don't cry)
take a look around you (don't cry)
took so long to find you
do what you want
but little darling please don't cry
(don't cry)
now that I have found you (don't cry)
take a look around you (don't cry)
took so long to find you
do what you want
but little darling please don't cry
(don't cry)
don't cry...
