

Voyeur's Gaze

Shy Girls

And you're standing so far away
I have to sit and have to pray
when I feel the pressure in your gaze,
feel the pressure from your veins Cause I don't really care if you saw me changing
If I'm the center of your vision I can be your painting
and I can take it off when you're looking at me,
I can keep going if you like what you see
I can be a model for your voyeurs gaze I can show you everything,
everything you wanted to go home with
I can show you everything,
everything your eyes can devour, babe
I can show you everything
I can feel the pressure from your gaze now
I can show you everything, I'll show you everything
Because the room was open, you saw me change I can lose my ego for your hit, babe
I can be a voyeur if it turns you on I don't really care if you saw me changing;
if I'm the center of your vision I can be your painting
I can take it off when you're looking at me,
I can keep going if you're liking what you see
I can be a model for your voyeur's gaze I can show you everything,
(Because the room was open, you saw me change)
everything you wanted to go home with
I can show you everything,
(Because the room was open, you saw me change)
everything your eyes can devour, babe
I can show you everything
(Because the room was open, you saw me change)
I can feel the pressure from your gaze now
I can show you everything,
(Because the room was open, you saw me change)
I'll show you everything
(You can be a voyeur if it turns you on, you can be a voyeur if it turns you on)
(I can show you everything)
Oh, everything I wanted to go home with
(You can be my voyeur if it turns you on, you can be my voyeur if it turns you on)
(I can show you everything)
Everything your eyes can devour, babe
(I can be a model for your voyeur's gaze, I can be a model for your voyeur's gaze)
(I can show you everything)
I can feel your view, your vision
(You can be my voyeur if it turns you on, I can be your model if it turns you on)
(I'll show you everything)

I'll show you everything you wanna see
Baby, I can be a model for your voyeur's gaze,
 (I can show you everything)
I can be a model for your voyeur's gaze
You can be my voyeur if it turns you on,
 (I can show you everything)
You can be my voyeur if it turns you on
I can be a model for your voyeur's gaze,
 (I can show you everything)
I can be a model for your voyeur's gaze
You can be my voyeur if it turns you on,
 (I can show you everything)
 (I can be your model if it turns you on)
you can be my voyeur if it turns you on
