

# Hold You Tonight

Gryffin & Chris Lane

Lipstick on the bottle  
That you left next to my bed  
The makeup on my pillow Reminds me you were there  
Try to tell my friends what you do  
But it's too hard to describe  
'Cause everything about you is better in real life Get up out of my head  
Get up out of my mind  
So come and fall into my arms  
And let me hold you tonight  
You got my heart in your hands  
And it just feels right  
So come and fall into my arms  
And let me hold you tonight  
Let me, let me hold you  
Let me hold you tonight Yeah, when it's late and I'm lonely  
And I've had a few drinks  
It sure hit a lot stronger, baby  
If you were here with me  
Mmm, are you up or are you sleepin'?  
Can you be on your way?  
Mmm, 'cause I ain't stop thinkin'  
'Bout last night all day Get up out of my head  
Get up out of my mind  
So come and fall into my arms  
And let me hold you tonight  
You got my heart in your hands  
And it just feels right  
So come and fall into my arms  
And let me hold you tonight  
Let me, let me hold you  
Let me hold you tonight  
Whoa, no, let me, let me hold you  
Let me hold you tonight I've got hours to give  
You should use 'em  
All those clothes you're in  
You should lose 'em  
All those plans you had  
Make some new ones  
Oh, 'cause this time  
I'm gonna take my time Get up out of my head  
Get up out of my mind  
And come and fall into my arms

And let me hold you tonight  
You got my heart in your hands  
And it just feels right  
So come and fall into my arms  
And let me hold you tonight Oh, c'mon  
Let me, let me hold you  
Let me hold you tonight  
Whoa, no, no  
Let me, let me hold you  
Let me hold you tonight Let me hold you tonight  
Please let me hold you tonight
