

# Stay

Lewis Watson

When I close my eyes I hear you singing  
Singing me a song that I'll forget  
I always forget I try to take myself back to sleeping  
You pick me up but I let you down It was so clear but now it's gone  
I couldn't keep my eyelids shut  
Why can't you stay?  
Stay... stay  
If only I could dream we could start again  
If only I could dream we could start again  
Ooohhh... oooh When I close my eyes I see you dancing  
Dancing me a song  
Just out of reach, just out of reach I need you in a day when I'm not dreaming  
You pick me up,  
I don't wanna let you down It was so clear but now it's gone  
I couldn't keep my eyelids shut  
Why can't you stay?  
Stay... stay  
If only I could dream we could start again  
If only I could dream we could start again Ooohhh... oooh  
It was so clear but now it's gone,  
I couldn't keep my eyelids shut,  
Why can't you stay?  
Stay... stay... stay  
If only I could dream we could start again  
Stay  
If only I could dream we could start again  
Stay  
If only I could dream we could start again  
If only I could dream we could start again
