

Gabrielle

Brett Eldredge

I was caught up in your brown eyes
Looking up at the blue skies
Really made me realize They don't make 'em quite like you
Cinnamon skin in the sunshine
Stop time in the moonlight
Really made me feel like
Like I could fall for you Then one day you were just gone
And I've been wondering for so long Oh was it your heart or mine?
Was it just the wrong time?
Gabrielle
We never got very far
But girl wherever you are
I wish you well
Gabrielle
You were picking flowers on a side road
Leaning back on a fence post
Couldn't help but notice
You were wanting something more
I was staring off in the distance
Blinked twice and I missed it
Can we just rewind it like it was before? And I woke up and you were gone
And I've been wondering for so long Oh was it your heart or mine?
Was it just the wrong time?
Gabrielle
We never got very far
But girl wherever you are
I wish you well
Oh! Gabrielle
And the miles they fly by
Till you land back home again
And do you ever wonder
What we might have been? I can still see you standing there
Sun shining behind your dress
Your silhouette
Hum! So perfect
Take me back there
Take me back there Oh was it your heart or mine?
Was it just the wrong time?
Gabrielle
We never got very far
But girl wherever you are
I wish you well

Oh! Gabrielle Oh! Gabrielle
Was it just the wrong time?
Gabrielle
