

# Want It, Need It (feat. Ashanti)

## Plies

I never knew you felt like that baby  
Never knew you felt like that  
Pleasure's all mine Oh, boy I think of you on two occasions  
That's when I want it, that's when I want it  
That's when I need it, that's when I need it  
You know I think of you on two occasions  
That's when I want it, that's when I want it  
That's when I need it, that's when I need it, hey I think it's so cute how you use me  
Whenever you want sex I'm who you come and see  
I'm the one you call when ya body on E  
You need a refill I'm who you come see  
They give you eighty seven, I give you ninety three  
Premium top of the line, straight deep  
Say it again in my ear, Plies you a beast  
How could one this gutta be so sweet Whatever you need, baby it's my treat  
All I want from you is to let me go deep  
I'm on call for you seven days a week  
Sex on delivery, S.O.D Oh, boy I think of you on two occasions  
That's when I want it, that's when I want it  
That's when I need it, that's when I need it  
You know I think of you on two occasions  
That's when I want it, that's when I want it  
That's when I need it, that's when I need it, hey When she think about me she get so wet  
Every time she want it she send me a text  
Do I want it tonight? Baby yes  
Between her legs, she is so blessed  
She is the best thing in the bed that I met  
You need a good jug be my guest  
Whatever you want I'm at your request  
Until I get to you baby I can't rest All I can think about is feelin' your sweat  
Playin' in your hair and feelin' your flesh  
Watchin' you as you undress  
I'm your goon, you my goonette Oh, boy I think of you on two occasions  
That's when I want it, that's when I want it  
That's when I need it, that's when I need it  
You know I think of you on two occasions  
That's when I want it, that's when I want it  
That's when I need it, that's when I need it, hey I'm sleepin', I feel your hand in my boxers  
Baby, it's five in the mornin', you rubbin' on Oscar  
Know if you wake him up it's gon' be problems  
I know you playin' with what you want so I won't stop you Jus' let me open my eyes so I can  
watch it

You want a dose of your medicine you wanna see the doctor  
Gon' take 'em off so I can go and lock ya  
I call you momma, you call me poppa I wanna make you tonight my baby mama  
Scent like water, mean no aroma  
Come a lil' closer so I can put it on ya  
You my property I'm your owner Oh, boy I think of you on two occasions  
That's when I want it, that's when I want it  
That's when I need it, that's when I need it  
You know I think of you on two occasions  
That's when I want it, that's when I want it  
That's when I need it, that's when I need it, hey
