

# Good Morning Text

## Queen Naija

I used to check my phone  
Chills when I saw your name  
Used to talk all night long Now things are not the same I used to lay in your bed  
While you used to play in my head  
We were the best of friends  
I'm second guessing this  
Now I just question myself Cause I don't get that  
Good morning text no more  
I don't get no kiss when I walk out the door Baby, we was so deep in love, what happened to us?  
Guess all I really wanna know is  
Do I love you more?  
Then you love me cause it was way better before  
Do you still love me?  
I wanna know  
Do I love you more?  
Then you love me cause it was way better before  
Do you still love me?  
I wanna know  
Do I love you more?  
Do I love you more? I be up late reminiscing  
Never had to beg for your attention  
Gotta do the most for a mention  
When we make love, only time you say you miss it I try so hard to ignore my heart  
I thought it was all in my mind  
But you know my intuition never lies  
Yeah, intuition never lies  
Cause I don't get that  
Good morning text no more  
I don't get no kiss when I walk out the door  
Baby, we was so deep in love, what happened to us?  
Guess all I really wanna know is Do I love you more?  
Then you love me cause it was way better before Do you still love me?  
I wanna know  
Do I love you more?  
Then you love me cause it was way better before Do you still love me?  
I wanna know  
Do I love you more?  
Do I love you more? I miss the old you and I miss the old us  
Can we get that hack, am I asking too much?  
I miss the old you and I miss the old us  
Can we get that hack, am I asking too much? Do I love you more?  
Then you love me cause it was way better before Do you still love me?

I wanna know  
Do I love you more?  
Do I love you more?
