

# Apocalypse (feat. Lil Rob)

## Mr. Shadow

If your ass wants to live another day  
Get the f\*\*k out of my way when I lyricly slay  
Bring it on all my foes  
Mr. Shadow be the one killing mothaf\*\*kas  
Like told shove em all in holes  
Lke a ghost i'ma hauncha mothaf\*\*kas make the stories tie  
I can hear the cries I sing when you bring it with more jealousy  
I give a bullet and begin to do the fool like I do that vatos mine  
To the night with a sight when  
I look the moon is full and get tool and look for my foe  
Got that five footed star on my chest so you know what it is that i'm searching for  
Murder you heard of me makin it dark like an eclips  
Like "Tales From the Crypt" I come equipped with the triple six  
And I'm bound to get sick  
It's The vilest lyricist bringing this wickedness nemisis  
Giant on my premisis withnessin part like the Exorcist  
Cause I'm comin to get em like every day  
You run and you can hide but you won't get away  
It's the game that I play like the quija board  
You can't see me but you will believe me, and need me  
If you look a little closer you can see The Shadow of a demon appearin  
I'm hearing the voices that tell me to do the evil shit that I do  
And you know that I'm due so I do when I cast my spell on you  
The evilness just fell on you and I'm the perfect fool to wish HELL ON YOU  
(Demon Voices)  
Tonight, 781 to your area  
You know it's gonna happen tonight  
But of course, 781 to your area(Lil' Rob)  
Creepin up on your ass you won't even see or hear me coming  
Be running I'm becoming some thing evil f\*\*k people f\*\*k sequals  
Got to get the murder done now, all I see is the fear in your eyes  
Your tempature rise, You're terrorized  
Don't be surprised, I see my reflection like a mirror in your eyes  
Every thing gots a price, but you got a price to pay  
I sold your life away, you stole a slice away  
Dealin with your life I took your strap, your price is right  
Could tonight be the night that I feel some thing come over me  
I don't know what it is with a devilish grin  
Foes and friend and bloody sin  
Don't know when it's gonna end  
Just like a puppet on a string he'e controlin me  
I try to be cutting those string but like smokey he gets a hold on me

(Devil's Voice)

Thats the fool that rolled on you

Thats the fool that stoled on you

What the f\*\*k you gon do

F\*\*k it I'll do it for you(Lil' Rob)

I'm having a conversation with somebody whos not even there

Hearin the voices inside my head saying you'll get no where he you care

I be the Lil' Rob going insane when he calls me name

I'm hearing voices in my head and every night I do what said(Demon Voices)

Lil' Rob... tonight is the night

I better listen to my master

It's good bye, tonight is your night

You should of never messed with me

Never mess with, maricon(Lil' Rob)

It's the satanical, magical Lil' Rob and The Shadow

We're coming at you like horns my mother regrets I was born

And I know you like it like porn treat the streets like hors leave em torn

In drop my rhymes like the storm when it rains it pours

I take form and I...

Hit the streets looking all nice and neat top fully creased

One hell of a looking beat the least of my feats from west to east

From north and south not knowing what it's all about top me on scout

Looking for my new recruits to follow my foot steps down my route

If you're not in you're out, to know what I'm feeling

I'm beggin you to stay and if you wanna come play

But if not your better pray cause I'm coming your way

TRUCHA(Mr. Shadow)

Krimes pays when ever the f\*\*k I inflict pain with pick

And I'm coming to stick you let satin be with you

Nobody will probably miss you when I diss you

If you want to f\*\*k around with these two blad headed mothaf\*\*kas

That'll leave you in the mist when I clutch my fist

I'm pist you missed Apocalypse, I can't resist the bloodyness

The mess ain't over on 31st of October, I toldcha

The Virgin Mary won't hold, I'll scoldcha and moldcha into a deamon screamin

I'm leavin you sufferin wonderin why

I have a tail a pair of horns and glowin eyes

Baptisted in boiling water f\*\*k the father I f\*\*ked his daughter

I got her under my wing, it ain't no thing now let the Devil sing(Devil)

I'm back

So now you know that you're gonna f\*\*kin burn in hell

Tell what you think then I will meet you at the crossroads
