

# No Story Time

## Smallpools

Fall from my head through my subconsciousness  
But Im just a host, Im just a conduit  
Whats the reason  
Whats the reason you sought me out?  
Sought me out  
Forced to please them forced to be what they talk about  
Talk aboutDont you leave me alone  
Dont you let go  
Dont you leave me alone  
Dont you let go  
Dont you let go  
String in my hands tethered to faceless friends  
So I cant be blamed for anything Ive just said  
(No)  
Whats the reason  
Whats the reason you scoped me out?  
Scoped me out  
Forced to please them forced to be what they talk about  
Talk aboutDont you leave me alone  
Dont you let go  
Dont you leave me alone  
Dont you let go  
Dont you leave me alone  
Dont you let go  
Dont you let go  
I can feel it, feel a cold stare  
Through a crossing up on the mezzanine  
And when my warm blood hits the cold air  
I can feel a flash on my good sideNo story time (No no)  
No story time(No no)  
Dont you leave me alone  
Dont you let go  
Dont you leave me alone  
Dont you let go  
Dont you leave me alone  
Dont you let go  
Dont you let go
