Close to my phone, you can have them babe
All of them hoes, they don't add up babe
You're the only one, that I call my babe
If I was on the run, you could be my Beyonce babe
How about we 1st start from the tongue to
the waist down
I'ma beat it up, till you scream for another round
I've been working out baby, feel on this power
Girl when you're alone, let me hear you moan, louder
This could be us, yeah
If you let me own it
This could be us
If you let a real man get a win for you
This could be us
If I run it with you
This could be us
I'm with anything you wanna do
This could be us, this could be us
It could be us, this could be us
It could be us, this could be, this could be
This could be us, oh yeah, yeah
Home late night calls, I might answer back
I'm gonna break you off, sledgehammer, babe
What happened to that talk
You been talking, babe
Now i'm in your face, I want that action, babe
How about we 1st start from the tongue to the
waist down
I'ma beat it up, till you scream for another round
I've been working out baby, feel all this power
Girl when you're alone, let me hear you moan, louder
This could be us, yeah
If you let me own it
This could be us
If you let a real man get a win for you
This could be us
If I run it with you
This could be us
I'm with anything you wanna do
This could be us, this could be us
It could be us, this could be us
It could be us, this could be, this could be
This could be us, oh yeah, yeah
I'ma find love in the killer
I'ma hold you down, girl it ain't nothing thriller
And I'm the motherfucker man

If you anybody be with the motherfucking man
Get up, I'ma take care of the bills
You forgot to stick em up with the toaster
I'ma take care of the thrill
I promise rollercoaster How about we start from the tongue to the waist down
I'ma beat it up, till you scream for another round
I've been working out baby, feel all this power
Girl when you're alone, let me hear you moan, louder This could be us, yeah
If you let me own it
This could be us
If you let a real man get a win for you
