(madchild)

im startin to blow thinkin how far can we go  
work hard for the dough we dope but you already know  
we droppin the cut, rockstar choppin it up  
oh my god we stay hard never softening up  
and we rockin it rough  
tough til my pockets are stuffed  
love hip hop and clockin the bucks how can i get enough  
this shits ridiculous i say fuck the fifth  
im particularly wicked while i kick it with a nickel platted nine  
so i can hit you in the nick of time hit the nicest i can find  
every nights a different dime

(madchild) i was a crazy little devil at a early age  
been raising hell still im tryin to reach the pearly gates  
if im with my family i will separate your vertebrae  
that girl was last night i think im taking her today  
im havin bad dreams people wanna murder me  
well thats the word at least first second and third degree  
shoot first then ask the questions if theres a burglary  
im a bad man madchild you might of heard of me

we chop it up  
we drop the cuts  
look out for us  
cus here we come (uh-huh)

listen suckers obey the law  
battleaxe warriors raging war  
burn the roof off crack the floor  
we used to be kings  
easy those days no more  
not done til my groups number one  
til im proud of what ive done  
another cloud in the sun  
cus we are better than the rest of them  
that theres the battleaxe crew dont go testin em  
alot of rappers gettin on my nerves today  
i told ya homeboy gangster not a word to play

you hide behind the image without puttin in the work  
no wonder why you end up looking like a fuckin jerk  
just because you got a black and gold sparkly shirt  
with some diamonds on your watch you aint never did no dirt  
hey yo madchild i hear what your sayin big homey  
prev-one i hear you, alot of these dudes aint know what ya done  
battleaxe number one  
listen suckers obey my orders  
battleaxe warriors crossin borders  
rock all sound system not distorted  
the rebel of treble, the bass destroyer  
take stage world wide we are born performers  
put your right fist up that means that you will join us  
appetite for destruction rapid attack is enormous  
back in black smash the amp and then im back to the chorus  
we chop it up  
we drop the cuts  
look out for us  
cus here we come (uh-huh)
