

# Can't Walk Away

Tiffany Evans

Just when I'm saying whatever  
Clean slate we're back and together  
We're just now, see boy now I know better oh oh oh...Then we go losing our temper  
I'm outro saying forget you  
But I can't keep it moving and let you go oh oh oh...(chorus)  
I.I.I... I can't walk away from you when i say we're through  
Don't how you do me the way you do  
i wish that i never met u  
Cus i cant walk away from you when i say were thru  
Don't know how i'm so damn in love wit u  
i cant walk away from youHow many times did you say sorry  
just to turn around and say you don't want me  
Flip it back, back and spend a night callin oh oh oh...  
And I got a be a fool to think you're gettin closer  
everytime we're cool youre tellin me that its over  
and youre playin games  
and even thou its old i know oh oh oh...  
I.I.I... I can't walk away from you when i say we're through  
Don't how you do me the way you do  
i wish that i never met u  
Cus i cant walk away from you when i say were thru  
Don't know how i'm so damn in love wit u  
i cant walk away from you  
Just when i'm sayin its time to move on  
Just when i'm tellin eveybody im gone  
I gotta check myself  
cus the truth is I can't be...  
Nowhere without you  
its all about you  
cant be wit no one if its not u  
Baby wat am i gonna do  
i cant walk away from you  
I.I.I... I can't walk away from you when i say we're through  
Don't how you do me the way you do  
i wish that i never met u  
Cus i cant walk away from you when i say were thru  
Don't know how i'm so damn in love wit u  
i cant walk away from youI.I.I... I can't walk away from you when i say we're through  
Don't how you do me the way you do  
i wish that i never met u  
Cus i cant walk away from you when i say were thru  
Don't know how i'm so damn in love wit u

i cant walk away from youWake up and make up, wake up and break up (then we) do it all over  
againWake up and make up, wake up and break up (then we) do it all over again
