

Castaway

5 Seconds of Summer

Young love, close the chapter, there's no "ever after"
Fell fast, ended faster, yeah
Late night conversations, let to complications
Now my heart is in my hands
Cause you walked out and left me stranded
Nothing left but picture frames And I just keep on asking myself
How'd we drift so far away from where we left off yesterday?
I'm lonely like a castaway Heartbreak that I can't escape, a sinking ship I'll never save
I'm lonely like a castaway
All your screaming whispers, slip right through my fingers
But these memories linger on
Eyes closed, all I see is good times disappearing
And I'm trying to hold on
Cause you walked out and left me stranded
Nothing left but picture frames
I just keep on asking myself
How'd we drift so far away from where we left off yesterday?
I'm lonely like a castaway Heartbreak that I can't escape, a sinking ship I'll never save (never
save)
I'm lonely like a castaway
Castaway, castaway
(Ohhh, Ohhh)
(Castaway)
(Ohh, Ohh)
(Castaway)
How'd we drift so far away from where we left off yesterday?
I'm lonely like a castaway
How'd we drift so far away from where we left off yesterday? (yesterday)
I'm lonely like a castaway
Heartbreak that I can't escape, a sinking ship I'll never save
I'm lonely like a castaway
(Ohhh, Ohhh)
(Castaway)
(Ohh, Ohh)
(Castaway)
