

# After Dark

## Mateo

Lady in a yellow dress  
Staring at me from the door  
The cab is here, I gotta go  
But tell me what I'm leaving for Cause you know you're my baby  
Can you say you're my baby  
Say it close And if I were to kiss you here tonight  
Would you be ready for me Cause everyday I leave but not this time  
Just say your ready for me Let me love you after dark  
Love you after dark  
Lady with the cherry lips  
Can we make the pillows talk  
We spent the days and made it rich  
And saved our love for after dark Cause you know you're my baby  
Can you say you're my baby  
Say it close And if I were to kiss you here tonight  
Would you be ready for me Let me love you after dark  
Love you after dark Baby I am gonna love you through the night  
When the hours turn to morning I'm by your side (Repeat) I'm yelling out So love me  
Cause I'll be loving u all night  
Just love me  
And I'll be here all night for life  
Youll never be alone Til the sun comes shining thru
