

# Zombies

## Childish Gambino

All I see is zombies  
Moving all around us  
You can hear them coming  
(they can take your life)  
You can hear them breathing, breathing down your spine That's right, that's right All I see is  
zombies  
Moving, screaming, loudly  
They can smell your body  
And they want your soul  
Here they come behind you  
Try and stay alive  
Do you feel alive?  
You will find that there is no safe place to hide That's right, that's right All I see is zombies  
Hear them all around us  
If you feel them coming  
Then you won't survive  
They don't know what I am  
They just stay alive  
Do you feel alive?  
You will find that there is no safe place to hide Do you feel alive?  
Do you feel alive?  
Do you feel alive?
