

# Low Life (feat. Jamie N Commons)

## X Ambassadors

I'm nothing but a low life  
Thinking 'bout my own life  
I can't help myself from falling  
Can't help myself from falling  
I'm nothing but a low life  
Thinking 'bout my own life  
I'm trying to fight the good old fight  
But after it all, I'm still just a low life  
Wanna be a better man, but it's a hard life  
Without that love inside you, it's a cold bind  
I started to reflect on all that's been before  
Started to wonder, but, but you can't be sure  
Now please tell me I'm broke  
It's much easier that way cause I just let you down  
It's much easier that way  
I'm nothing but a low life  
Thinking 'bout my own life  
I can't help myself from falling  
Can't help myself from falling  
I'm nothing but a low life  
Thinking 'bout my own life  
I'm trying to fight the good old fight  
But after it all, I'm still just a low life  
There are words in my mind in the candlelight  
Cold hands on my heart keeping slow time  
And I started to reflect on all that's been before  
Started to wonder, but you, you can't be sure  
Now please tell me I'm broke  
It's much easier that way cause I just let you down  
It's much easier that way  
I'm nothing but a low life  
Thinking 'bout my own life  
I can't help myself from falling  
Can't help myself from falling  
I'm nothing but a low life  
Thinking 'bout my own life  
I'm trying to fight the good old fight  
But after it all, I'm still just a low life  
I'm still just a low life  
Nothing but a low life  
I can't help myself from falling  
I can't help myself from falling

Still just a low life  
I'm nothing but a low life  
I'm trying to fight the good old fight  
But after it all, I'm still just a low life  
I'm nothing but a low life (nothing but a low life)  
Thinking 'bout my own life (thinking 'bout my own life)  
I can't help myself from falling (can't help myself)  
Can't help myself from falling (can't help myself)  
I'm nothing but a low life (nothing but a low life)  
Oh, I'm thinking 'bout my own life (thinking 'bout my own life)  
I'm trying to fight the good old fight  
But after it all, I'm still just a low life
