

Something About This Night

Gary Barlow

i can see them
see them forming perfect lights
ladies dressed upto the nines
gentlemen and feel in stides
i can hear them
everyone's a critique here
whispering it loud and clear
is this the failure of the year O in any other career you would know
know where you're going to
in any other career they would show you respect o but here they are never going to something
about this night
that you just can't forget
except shop faint smoke cigarettes
win or lose you wanna bet
cause there is something about this night
all actors call to one
() line prepare for song
is it too late to change everyone.
there's only one night to impress some reasonable expectations.
(something about this night)
ohohoh
(something about this night)
with only one night to impress some reasonable expectations. (something about this night)
ohohoh
(something about this night)
i can see them
reaching for their daggers now
hoping now would lay my face down ready to paint me as a clown
i can feel them yawning, calling for the end
o they're sharpening and their pens using all my blood instead of ink
O in any other career you would know
know where you're going to
in any other career they would show you respect o but here they're not going to.
something about this night
that you just can't forget
except shop faint smoke cigarettes
win or lose you wanna bet
cause there is something about this night
all the actors call to one
() line prepare for song
is it too late to change everyone.
there's only one night to impress some reasonable expectations.

(something about this night)ohohoh
(something about this night)
with only one night to impress some reasonable expectations.
(something about this night)ohohoh
(something about this night)
it's a fight, to shove it,
to labour of love
to churn it to know
what you've seen its over its the amples
of day could machins
is does anyone know what i mean
if there's ever a time
i should stay low
if there's ever a time i
should say no
waiting for 6 and for paper
to make up their mind.cause what is something about this night
yeaaaaah
cause there is something about this night
that you just can't forget
except shop faint smoke cigarettes
win or lose you wanna bet
cause there is something about this night
all actors call to one
() line prepare for song
is it too late to change everyone.
there's only one night to impress some reasonable expectations.
(something about this night)
ohohoh
(something about this night)
with only one night to impress some reasonable expectations.
(something about this night)
ohohoh
(something about this night)
ohohoh
something about this night
THERE IS SOMETHING ABOUT THIS NIGHT!!!!
