

Black Like Me

Spoon

I'm in need of someone to take care of me tonight
As I walk into Dorian's, can you see it in my eyes?
My boots are on the mend and they ain't walking home
Street tar and summer will do a job on your sole
Street tar and summer will do a job on your sole, ooh Jenny's watching Cover Shot, my head's
feeling light
I'm in need of someone take care of me tonight
Anyhow, anyway, so I split
Just getting out of there is gonna get me out of this
I spent the night in the map room, I humanized the vacuum
I'm in need of someone to take care of me tonight
Oh, and as I'm lookin' out at you, can you see that in, in my eyes?
On the mend, now they could lead me home
Street tar and summer, they play a trick on your soul Oh Jenny's gone day and night
(Yeah)
Oh it makes me feel so light
(Aw yeah)
Just somebody to care tonight Oh Jenny's gone day and night
(Yeah)
Oh it makes me feel so light
(Aw yeah)
Just somebody to care tonight
All the weird kids up front
(Yeah)
Tell me what you know you want
(Aw yeah)
Someone to take care tonight, oh
