

Kaleidoscope

A Great Big World

My life
My life was black and white and I believed it (I believed it)
My eyes
My eyes looked at the world but couldn't see it (I couldn't see it)
You're like the thing that makes the universe explode
Into the colors of a world I've never known
You keep turning, keep turning my life around
Violets and purples, diamonds and circles, you're my kaleidoscope
I love every minute, you've got me in it, you're my kaleidoscope
Hey la na na ah oh oh
you keep turning, keep turning my life around
Hey la na na ah oh oh
you keep turning, keep turning my life around
Tonight
The stars are in your eyes and I surrender (I surrender)
Tonight
Our hands against the wind, we are forever (we are forever)
It all looks better when I see it with you here
you keep turning, keep turning my life around
Violets and purples, diamonds and circles, you're my kaleidoscope
I love every minute, you've got me in it, you're my kaleidoscope
you're my kaleidoscope
Hey la na na ah oh oh
you keep turning, keep turning my life around
Hey la na na ah oh oh
you keep turning, keep turning my life around
I close my eyes to the oranges skies, living all of my days the same
And you came along, and you sang your song
And the whole world around me changed
Violets and purples, diamonds and circles, you're my kaleidoscope
I love every minute, you've got me in it, you're my kaleidoscope
Hey la na na ah oh oh
you keep turning, keep turning my life around
You're my kaleidoscope
Hey la na na ah oh oh
you keep turning, keep turning my life around
You're my kaleidoscope
Woah Woah Woah
You're my kaleidoscope
Woah Woah Woah
You're my kaleidoscope
