

# Pedigree Butchery

## Carcass

In caustic butchery  
I parent my dominion  
In the food chain  
I create the missing link  
Cold temerity confects  
This splintered for age  
Infantile corruption  
Taken to the brink Making hash of the  
Spumous crubescient  
All natural compassion removed  
The newly fully developed  
Boiled as sprouted fodder  
Martilinear murder  
Cordon bleu  
As salubrious pet food  
Human midden is consumed Not one to mince my words  
But now I love to see  
Those siblings churned  
In tins they are reared Ghastly I slake  
Bestial appetites to sate  
As flesh and steel I mate  
To fill the lower species' plate Desparental  
Primparal goods oozing  
The bawling, squabbling  
Denied the suckling teat  
Sentient bloodletting  
Sprains the sporulate  
Makes a choice chimerical treat  
Rheological  
Twisted nursery chymes  
The fluxing of the defleshed  
Paedophilosophical  
Carnage knowledge  
As the illegitimeat to  
The domesticated is fed So as you breed  
They will bleed Contumely calorie count  
Ebullient death toll mounts  
Higher and higher-Solos-Despumation the midden  
The desipient I segment  
Pertaining vitality  
Their dispatch I cement  
Served out for minion

In their feeding trough
